
Pick 4 Words

Use the following lists of words to create your own random writing prompts to help you come up with stories. From each 26-word list, pick a number between 1 and 26; that will be the number of the word that you will use from that column. When you've chosen four words, you'll have your writing challenge for the day. If there's someone around, ask him or her to pick the numbers for you.

| | | | |
|-------------|----------|----------|--------------|
